

The new iBook.

4.9 pounds. 1.3 inches. 5-hour battery. 1024-by-768 TFT display.

iBook puts the tools of creativity at your fingertips. Make a movie. iBook comes with iMovie so you can turn your raw digital footage into movies with professional-looking effects. Watch DVDs. Put your favorite movie in your DVD-ROM-equipped iBook and you've got a portable theater. Mix your music. Manage your entire music collection, make custom playlists, and burn them on CDs using iTunes and an iBook with the combination DVD-ROM/CD-RW drive. Master the web. Share your movies and digital photos on the home page you build with iTools.

*Make movies.*

*Rip MP3s.*

*Go wireless.*

Your life. To go.

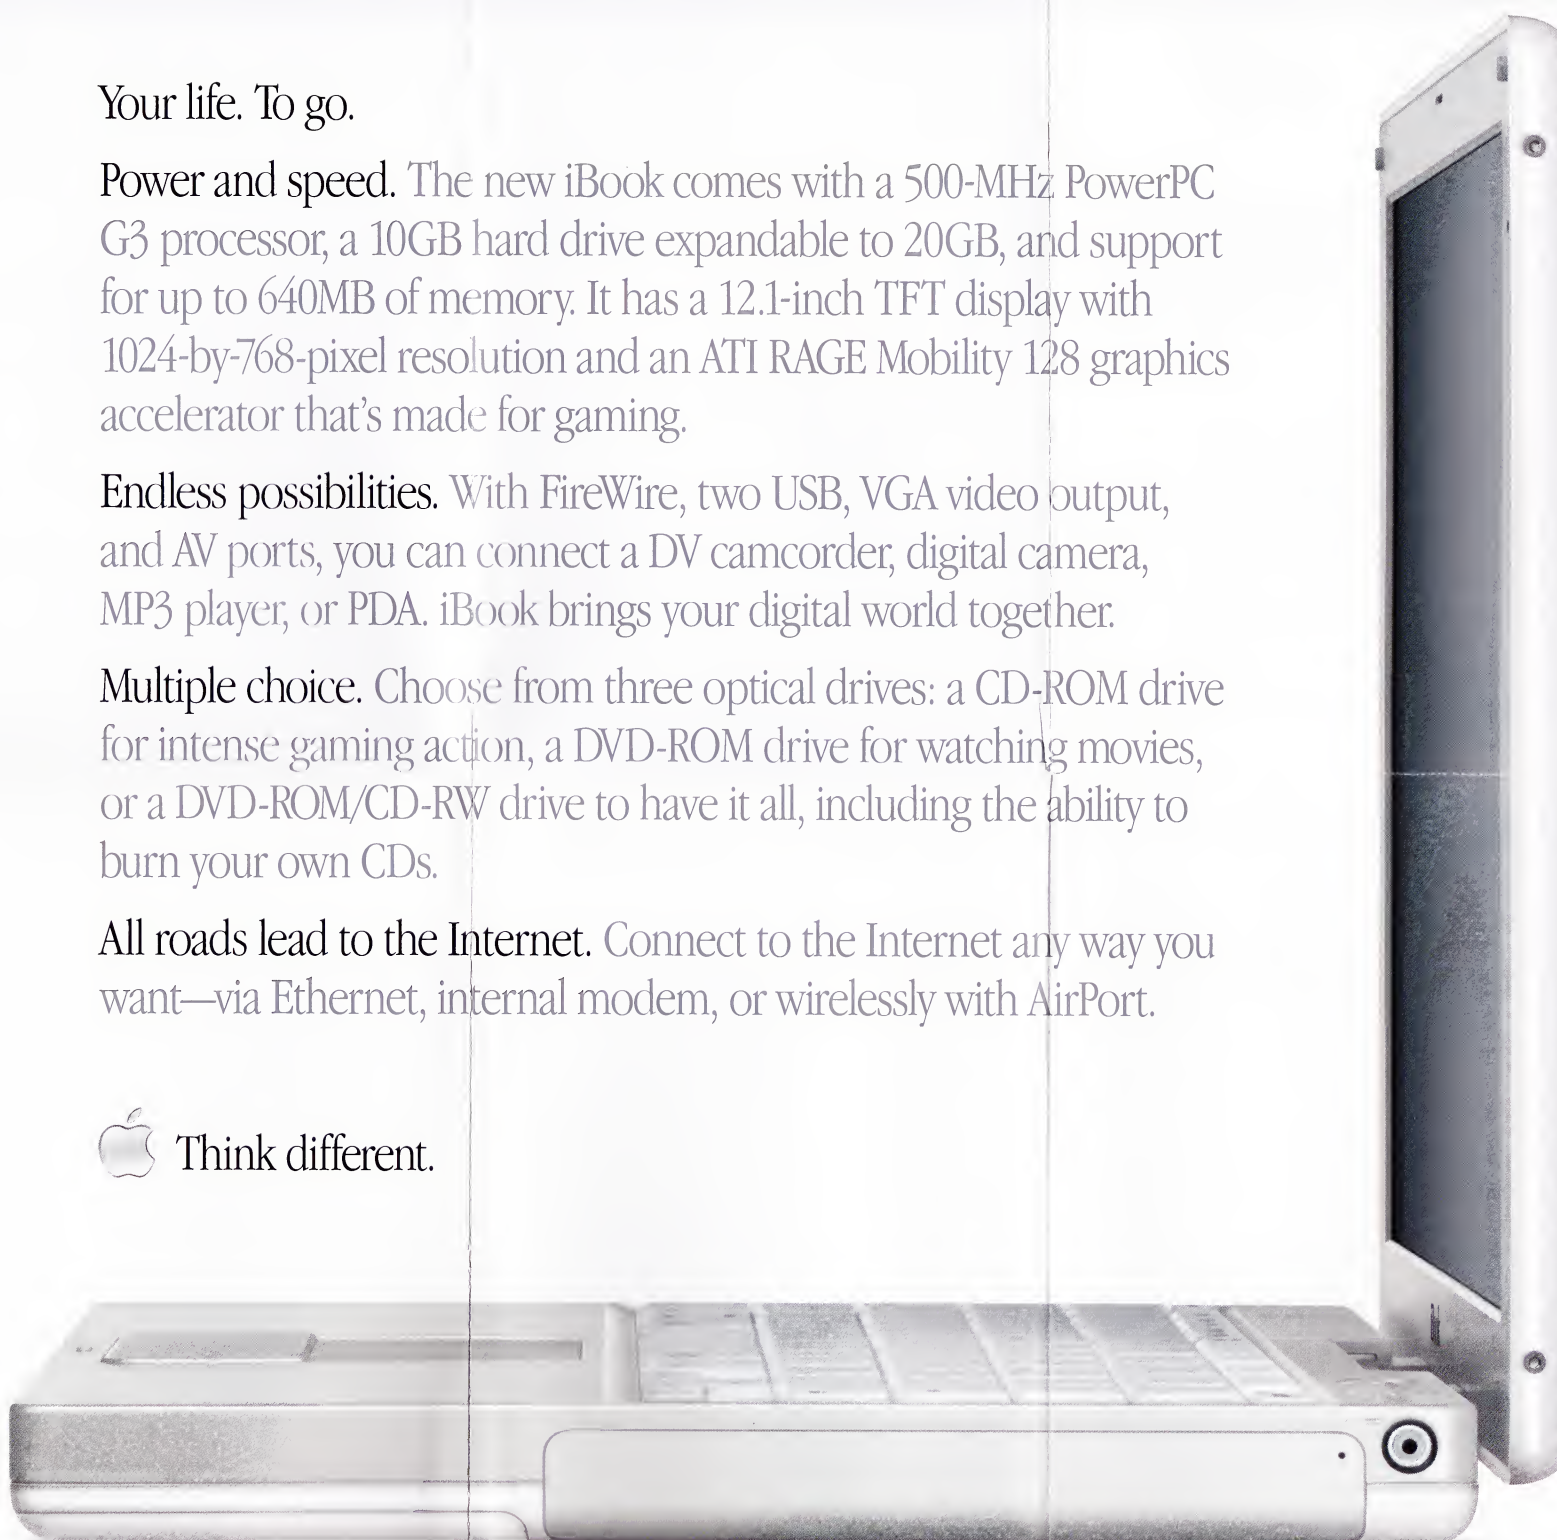

Power and speed. The new iBook comes with a 500-MHz PowerPC G3 processor, a 10GB hard drive expandable to 20GB, and support for up to 640MB of memory. It has a 12.1-inch TFT display with 1024-by-768-pixel resolution and an ATI RAGE Mobility 128 graphics accelerator that's made for gaming.

Endless possibilities. With FireWire, two USB, VGA video output, and AV ports, you can connect a DV camcorder, digital camera, MP3 player, or PDA. iBook brings your digital world together.

Multiple choice. Choose from three optical drives: a CD-ROM drive for intense gaming action, a DVD-ROM drive for watching movies, or a DVD-ROM/CD-RW drive to have it all, including the ability to burn your own CDs.

All roads lead to the Internet. Connect to the Internet any way you want—via Ethernet, internal modem, or wirelessly with AirPort.

 Think different.

#### iTunes

Rip music tracks.<sup>1</sup> Make custom playlists. Then burn mixes on CDs,<sup>2</sup> or plug in headphones and just listen. Your iBook is a portable jukebox that you can take anywhere.

#### iMovie

Shoot footage with a DV camcorder and connect to your iBook. Then edit your movie and add titles, transitions, special effects—even your own soundtrack.

#### iTools

Get your free membership to iTools at [www.apple.com](http://www.apple.com). Then build your own web page, create a personal Mac.com email account, and share your movies, pictures, and files.

#### Mac OS X

Get the power of UNIX with the legendary simplicity and elegance of the Macintosh.<sup>3</sup> Mac OS X is the world's most advanced operating system.

#### AirPort ready

Connect to the Internet wirelessly using Apple's easy-to-use AirPort technology.<sup>4</sup> In the kitchen, in the quad, or in the conference room—go online with iBook.

#### EarthLink

Enjoy 30 days of free Internet service through EarthLink, the only Internet service provider endorsed by Apple.

#### AppleCare

Purchase the AppleCare Protection Plan to extend your built-in service and support to three full years from the purchase date of your computer.

<sup>1</sup>iTunes is licensed for reproduction of noncopyrighted materials or materials the user is legally permitted to reproduce. <sup>2</sup>Selected models. <sup>3</sup>Mac OS X requires at least 128MB of SDRAM. <sup>4</sup>Wireless Internet access requires AirPort Card, AirPort Base Station, and Internet access (fees may apply). Some ISPs are not currently compatible with AirPort, including America Online. Range may vary with site conditions.

Battery life depends on configuration and use.
